Course Tutor

Dr Jeremy Lewis is a New Zealand born, Australian trained physiotherapist who currently works as a Consultant Physiotherapist at St George's Hospital in London, UK. He is also the Research Lead for the Therapy Department at the Chelsea and Westminster Hospital in London, UK. Jeremy has conducted clinical, laboratory and cadaver research in many areas of healthcare practice. He has also supervised numerous research projects involving both quantitative and qualitative research. Since 1992, Jeremy has lectured on many international conferences on the concept of evidence based practice including the Cayman Islands, USA, Middle East, UK, Ireland and Europe. His main area of research interest is the shoulder and is a passionate advocate of evidence based practice.
