SECTION 1

Introduction & Rationale

The level III is designed for qualified Occupational Therapists and Physiotherapists with proven knowledge in the field of hand therapy who have successfully completed BAHT level I & II courses or Accreditation of Prior Learning (APL), gained the required number of British Association of Hand Therapists (BAHT) points & are a member of the British Association of Hand Therapists (BAHT).

The learning identified as the outcome of level III & submitted for 5 BAHT accreditation points must be relevant to the Post-qualification Hand Therapy Education Programme of the British Association of Hand Therapists (BAHT). Level III promotes recognition of professional competence in a specialist aspect of hand therapy to improve the quality of patient care & foster evaluation, audit & research in hand therapy.

It is anticipated that therapists with five or more years of practice within the speciality of hand therapy will consider applying for Level III while pursuing the goal of Accredited Hand Therapist (AHT). This document provides a summary of the different routes available for therapists to gain BAHT level III points.

LEVEL I

The Level I Course is designed for therapists with minimal or no experience of hand injuries & conditions & for therapists who wish to refresh their basic knowledge of, & skills in, the field of hand therapy. It will promote recognition for professional competence & will improve the quality of patient care (*BAHT Guidelines Level I Course*). For therapists with more than 2 years' experience of hand therapy practice please refer to the Level I APL process.

One Point is awarded for successful completion of the Level I process.

LEVEL II

The Level II Course/Process is designed for therapists with proven experience in the field of hand therapy who have successfully completed an accredited Level I Course or APL route. Level II promote recognition for professional competence in a specialist aspect of hand therapy; improve the quality of hand care; & foster evaluation & research in hand therapy (*BAHT Guidelines Level II Course*). If a candidate wishes to submit evidence of prior learning to achieve two BAHT level II points information & evidence must meet requirements of the APL level II process.

***Two points are awarded per course/APL application for successfully completion.
6 Level II points are required if delegates wish to move to the BAHT level III route.
Each two points must be gained in a different specialist area of hand therapy.***

LEVEL III

This level offers members of BAHT a challenging opportunity to demonstrate their advanced knowledge of hand therapy. Five BAHT points are awarded for successful completion of Level III. Level III can be gained in a number of ways, described in more detail on page 5.

The structure for education & training is set out in Table 1.

Methods of gaining Level III BAHT Points Other MSc Module

Therapists may have completed/wish to complete an MSc module outside of those BAHT affiliated modules as listed within the BAHT level III – summary of routes document.

If the module is specifically relevant to the learning & development within Hand & upper limb Therapy practice it may be suitable for Level III accreditation. In these circumstances therapists can apply to have their module considered by the ESC by completing an application form & reflection as per criteria below & the guidance in Appendix 1.

Five Level III points will be issued to candidates meeting the criteria laid out within this document & each therapist's application will be considered on a case by case basis. Modules completed by a maximum of 2 years prior to the date of application can be considered, & all applications are subject to a £30 administration fee payable to BAHT. Please note registration fee payment must be made before the ESC can consider your application.

- Fees must be paid electronically by BACS transfer or over the phone by phoning the BAHT secretary. Cheques can no longer be accepted by BAHT.
