Use a material without any Isocyanates or fiberglass

C-LITE®

MATERIAL

- C-LITE® 100% small mesh cotton fabric impregnated by a thermoplastic material.
- C-LITE is strong, stable and very durable but also breathable and light weight.
- C-LITE becomes soft and mouldable when heated in a waterbath, and rigid when cooling down.
- C-LITE can be reheated an unlimited number of times reducing waste to zero.

ENVIRONMENTAL AND HEALTH ASPECTS

- C-LITE (like X-LITE) does not emit any hazardous fumes during the heating or solidifying process.
- C-LITE can be applied to the patient without the use of gloves or any other protective clothing.
- If used for casting there is no dust in cast removal process.
- No restrictions when using C-LITE with pregnant women or asthmatic patients.

BENEFITS

- No isocyanates or fiberglass
- Environmental friendly, biodegradable
- No extraction ventilation needed
- No gloves or operating mask required
- No waste, mess or dust
- Reversible left over material can be re-used
- Perfect for all types of splints and casts
- Gives a light and airy cast where the amount of layers determine the stability
- X-Ray translucent
